SHORT CV

Learn more about my design and development background including relevant education, internships, and job opportunities that shaped my career.

SHORT CV

PERSONAL STATEMENT

I am a senior graphic designer with over 8 years of relevant experience in the field. I currently work as an art director in Sharif's Science and Technology Park. I studied Physics at university, but my deep passion for design ultimately led me to pursue a career in graphic design. As a designer, I always look for novel and innovative ways for solving problems. I am driven by my hunger to learn and experience new things. I am best known for my ability to communicate well with clients and to understand their needs, and to consequently find the optimum solution for said needs. I am open to constructive criticism and I always try to build good rapport with my colleagues, teammates and whoever I need to engage with when working on a project.
